

Making Life Smoother.

**Chef™**

Fine-tuned blending control

## Designed with the culinary artist in mind.

Foodservice professionals, meet your new best friend. The Blendtec Chef blender offers the incredible power and performance that mark all Blendtec machines, along with an interface that lets you fine-tune your art in a way that no other blender can.

COMMERCIAL

# The machine that does what you want, how you want it.

Blendtec's innovative electronic blend cycle memory lets you customize your recipes and save them with the touch of a button. Compatible with all Blendtec jars, the Chef™ will help you and your staff easily undertake complex blending operations – making everything from sauces to smoothies to spreads and more!

## Standard Features

### POWER

- Powerful 15-amp direct drive blender motor
- 1800 watts
- Blend, chop, grind, mix, whip and puree
- Light-touch chopping to high-power blending

### CONTROLS

- Revolutionary memory function enables you to save any manual operation
- 20 available speeds with speed-up/speed-down function
- Blue LCD display

### QUIET

- Optional sound enclosure reduces noise in confined work areas (requires new motor base gasket)

### VERSATILITY

- Compatible with Blendtec's patented FourSide™, WildSide™ and Twister™ Jars

## Speed and power.

As with all Blendtec machines, the Chef boasts unrivaled speed and power – making your time in the kitchen more productive, blending your ingredients quickly and consistently every single time.
